The US Army Natick Soldier RD&E Center provides this widely distributed equipment catalog for information in obtaining urgently needed equipment and systems. Various items are highlighted in the areas of: Field Services; Shelters; Non-Powered Heaters; Powered Heaters; Generators and Powered Distribution Systems.

Our intent is to provide you with the best information in this pocket size catalog that you can carry along throughout your mission.

NSRDEC’s diligent research and development efforts culminate in combat equipment that save lives, protect soldiers against battlefield threats and environmental hazards, and steadily elevate their quality of life to higher levels.

DSN 256-5413, (508) 233-5413
MOBILE KITCHEN TRAILER-IMPROVEMENT (MKT-I)

Capabilities: Kit improves the performance and effectiveness of the MKT.

Description: Kit includes new fabric, cold weather skirt, lights, ventilation, griddle, floor mats, ice chest, and insulated food containers.

Power requirements: 120V AC, ~300kW

Size: N/A

Weight: N/A

Contractor: Penn Metals, PA

Cost: $10,000

Availability: Individual components available for acquisition.

Transportability: Tow w/ 2-½T cargo truck, fits on C-130

NSN: 7360-01-469-5482

POC: DSN 256-5543, (508) 233-5543
FOOD SANITATION CENTER (FSC)

**Capabilities:** Provides required sanitation to support field kitchen operations. Replaces immersion heaters and steel trash cans currently used to heat water.

**Description:** Consists of three sinks, stands and covers, burners, drain tables, work table, storage and drying racks and ancillary equipment. Uses sanitation method with three sinks of water maintained at different temperatures for successive cleaning, rinsing, and sanitizing pots, pans, and cooking utensils. System housed in 16'×20' TEMPER tent. One FSC supports two MKTs or one CK.

**Power requirements:** 120VAC when outfitted with MBU

**Weight:** 1,600 lbs

**Cost:** $18,000

**Status/availability:** Available standard supply system.

**Transportability:** 2-½ or 5 ton truck

**Supportability:** TM 10-7360-211-13&P

**NSN:** 7360-01-277-2558

**POC:** DSN 256-5540, (508) 233-5540
CONTAINERIZED SHOWER (CS)

Capabilities: Provides a clean environment for soldiers to shower with privacy. Each shower stall has individual controls for adjusting water pressure and temperature. Allows 72 soldiers to shower per hour (10 minute shower). System capable of collecting waste water and can pump it up to 500’ for disposal/storage.

Description: 12 commercial, fiberglass shower stalls, onboard ejector pump, and M80 water heater.

Power requirements: 10kW, 120 Volt, single phase

Size (L×W×H): 20'×8'×8' ISO Container

Weight: 8,500 lbs

Cost: $75,000

Availability: 180 day lead-time.

Transportability: Land, air or sea

NSN: 4540-01-470-1398

POC: DSN256-5540, (508) 233-4486
**SMALL UNIT SHOWER (SUS)**

**Capabilities:** Lightweight, portable shower system provides shower support for small units in forward areas. Provides up to 24 showers per hour.

**Description:** Compact heating unit burns diesel or JP-8 fuels. Provides temperature controlled water at 95°-105° F. Air beam supported tent with four individual shower stalls provides privacy and controlled water drainage. Set up/tear down by two soldiers in 15 minutes.

**Power requirements:** 28VDC via NATO slave cable connection to vehicle.

**Size (L×W×H):**
- Heater: 20"×13"×21";
- Shelter: 8'×12'×7' (setup);
- two bags (packed) 35"×29"×17" each.

**Weight:** 225 lbs

**Cost:** $14,700

**Status/availability:** CTA item (CTA 50-909), available through supply system.

**NSN:** 4510-01-409-0139

**POC:** DSN 256-5543, (508) 233-5543
**Capabilities:** Provides the capability for hot showers in the field at a rate of 72 showers (10 minute each) per hour.

**Description:** The 12-Head Shower consists of six 2-man shower stalls made of fiberglass bases with fabric secured over a framework of aluminum tubing. A combination of hose connections and a pump assembly water supply provides drainage for the shower facility. Hot water is provided by the diesel/JP8 fired M-80 water heater. Two 3-sink shave stands are also included. System packaged in 2 TRICON containers.

**Power requirements:** 5kW, 208 volts, 3 phase

**Size (L×W×H):** 20’×8’×7’

**Weight:** 2,000 lbs

**Cost:** $31,775 (includes shower, generator, M80 water heater)

**Status/availability:** Available through supply system.

**NSN:** 4510-01-163-6775

**POC:** DSN 256-5282, (508) 233-5282
CONTAINERIZED SELF-SERVE LAUNDRY (CSSL)

Capabilities: Provides facility for soldiers to wash and dry personal laundry. Can service 120 soldiers per day.

Description: 6 stackable commercial washer/dryer units mounted in a 20’×8’×8’ ISO container. A tent is provided as folding and sorting area.

Power requirements: 30kW (Two-100 amp connectors)

Size (L×W×H): 20’×8’×8’ ISO container w/ 8’ TEMPER tent and connecting bootwall.

Weight: <10,000lbs

Cost: $75,000

Status/availability: 150 day lead-time; War Reserve Operational Project stock.

NSN: 3510-01-474-9035

POC: DSN 256-5540, (508) 233-4486
CONTAINERIZED CHAPEL (CC)

Capabilities: Fully functional chapel providing religious needs to base camps of up to 550 soldiers.

Description: The CC is contained in one 20’×8’×8’ ISO container which includes 64’ of tentage, Two-ECUs, power generation/distribution, seating for 100, and religious supplies. Cold Weather Kit includes an Army Space Heater and a 5kW Generator.

Power requirements: 120/208 VAC 30 kW

Size(L×W×H): 20’×8’×8’ ISO + 64’ TEMPER Tent

Weight: 15,000 lbs (approx.)

Cost: $125,000 (approx.)

Status/availability: 1 year lead-time; War Reserve Operational Project stock.

NSN: 9925-01-481-5136

POC: DSN 256-5540, (508) 233-4486
CHAPLAINCY LOGISTICAL SUPPORT PACKAGE (CLSP)

Capabilities: Provides the capability for Unit Missionary Teams (UMT) to carry ecclesiastical supplies, administrative supplies, and computer hardware (not included) in a consolidated package anywhere they travel on the battlefield.

Description: Lightweight container which functions as a portable altar, work station, and storage for religious supplies.

Power requirements: None

Size (L×W×H): 30”×28”×20.5”

Weight: 80 lbs

Cost: $600 (approx.) (not including linens)

Status/availability: CTA item; 60 day lead-time.

NSN: 9925-01-479-5319

POC: DSN 256-5540, (508) 233-4486
CONTAINERIZED LATRINE (CL)

Capabilities: Provides latrine service for 150 soldiers with individual privacy and increased sanitation.

Description: Privacy stalls with six-low water flush toilets, a trough urinal, two-waste collection tanks, two-sinks w/running hot/cold water, one 6-gallon water heater, mirrors, and dispensers for toilet paper, paper towels and soap. Each stall has hooks and shelves. Heater/AC unit installed in the rear wall to regulate internal temperature and a fan is mounted on front wall to provide ventilation.

Power requirements: 10kW, 120/208 V, 50/60 Hz, 3 phase

Size(L×W×H): 20’×8’×8’ ISO Container

Weight: <10,000 lbs

Cost: $55,000

Status/availability: 30 day lead-time; War Reserve Operational Project stock.

Transportability: Land, air or sea

NSN: 4540-01-477-7764

POC: DSN 256-5540, (508) 233-4486
SMART BOOK BUYER’S GUIDE:

GENERAL PURPOSE SHELTERS

1. Environmental threats:
   A. Snow load of 10 lbs per sq. ft. for 12 hours without damage to the frame which causes failure
   B. Driving rain of 2 inches per hour at 35 mph for 30 minutes
   C. Withstand wind load of 55 mph, with gust to 65 mph
   D. Operational at –60 to 120 degrees F
   E. Openings for flue stack and ECU ducts

2. Detection threats:
   A. Matt or dull finish to fabric and support systems
   B. Fabric in colors of green, tan or white
   C. Not observable at night with light inside 100M with naked eye//300M with night vision goggles

3. Safety:
   A. Flame resistance/char length/melt drip to meet ASTM d-6413-99, paragraph 3.4.7
   B. No toxic coatings
   C. Meets human factors requirements for soldier lift (i.e. 37lbs each soldier)

4. Durability:
   A. Withstand 50 cycles of erect & strike for one year
   B. Sustainable with repair parts, manuals and logistical support
   C. Capable of two years of continuous use

5. Other considerations:
   A. Insect screens, door openings
   B. Erected in all environmental conditions
   C. Transportable on 463l pallet and by C-130, cargo HMMWV, FMTV & LMTV
   D. Spare & repair parts available thru contractor
SMART BOOK BUYER’S GUIDE:

SMALL SHELTERS

1. Environmental threats:
   A. Minimum of 15 sq ft per person
   B. Integral tub floor
   C. Include a fly and free standing vestibule
   D. One front/one rear entry on tent and fly
   E. Operational at –60 to 125 degrees F
   F. Withstand wind loads of 50 mph, with gusts to 65 mph
   G. Driving rain load of 35 mph at 2 inches per hour
   H. Snow load of 4 lbs per sq ft.

2. Safety:
   A. Flame resistance/char length/melt drip to meet ASTM P – 6413-99 Paragraph 3.4.7

3. Durability:
   A. Repair kit
   B. Sustainable with spare parts, repair parts and manuals from the contractor
An online TM for tents that utilizes the Defense Support Center Philadelphia’s (DSCP) Clothing and Textiles “Warfighter” catalog ordering system.

With links to a comparison table of military standard shelters, new Army shelters, Army heaters and field service equipment. Additional links are provided to Resource Handbooks for shelters, accessories, support parts, shelter links, U.S. DOD Defense Links and Industrial Base Links.

**Base Camp can be found at the following Web Site:**
http://warfighter.dla.mil/special/basecamp
The Fabric Structures Team Prototype Shop is a fully staffed design and fabrication unit located at the U.S. Army Natick Soldier RD&E Center. It can produce prototypes and undertake small production runs of shelters and shelter components.

- Industry standard sewing capabilities
- Heat sealing and tape sealing utilizing hot air & hot wedge
- RF Sealing
- Full prototyping capabilities from design through finished drawings
- Augmented by metal prototyping shop, rain room, environmental chambers, camouflage detection room and fabric testing facilities
- Staffed by 4 senior equipment specialists and 3 equipment specialists
- Over 75 years of combined experience in military shelters
- Small production facility meets the individual customers requirements with minimal paperwork but time sensitive
- Customers include: USMC, USAF, Force Provider, 1st SFG, 201st MI Project Manger Soldier Support, Defense Support Center Philadelphia

POC: DSN 256-5024, (508) 233-5024
The Design, Engineering & Fabrication Team (Shelters Technology Engineering & Fabrication Directorate) combines CAD design, finite element analysis, rapid prototyping, custom physical testing with a full service mechanical prototype, integration and production capability. The Team provides design solutions and drawings to suit customer’s requirements. With state-of-the-art equipment and experienced personnel, the facility produces high quality prototypes, integrated systems and production runs of equipment and systems for the Soldier. This full service operation offers a wide variety of manufacturing techniques designed to provide customers with a single source for design, prototyping, testing and fabrication. DEFT works with engineers and a fabric prototyping and production facility and also develops strategic partnerships with vendors to provide additional capabilities such as anodizing, painting, powder coating, hardening, annealing, testing, plastic injection molding, shelter, tentage & fabric designs, etc.

**Capabilities Include:**

- Rapid Prototyping
- Load Testing
- Custom Test Design & Setup
- Engineering Services
- Fabrication and Assembly Shop
- Wood and Plastic
- Machine Shop
- Sheet Metal
- Waterjet cutting center
- Welding

**POC:** DSN 256-4271, (508) 233-4271
MODULAR GENERAL PURPOSE TENT SYSTEM

**Capabilities:** Provides a multipurpose, modular, weatherproof shelter that improves upon the General Purpose (GP) Small, Medium and Large tents in the areas of habitability, weight, erect/strike time, supportability, durability, mobility, and versatility.

**Description:** MGPTS is a larger, modular, pole supported tent with vinyl-coated polyester fabric that is a more versatile and habitable replacement of the old GP Small, Medium, & Large tents.

**Power requirements:** None; electrical feed-throughs are provided to accept external power sources.

**Size (L×W×H):**
- Small 18’ × 18’ × 11.5’ (7’ H sidewall)
- Medium 36’ × 18’ × 11.5’ (7’ H sidewall)
- Large 54’ × 18’ × 11.5’ (7’ H sidewall)

**Weight:**
- Small 470 lbs; Med 795 lbs; Large 1107 lbs

**Cost:**
- Small $6,250; Med $8,800; Large $13,800

**Status/availability:** CTA 50-909 item, available now thru DLA.

**Transportability:** Air, land and sea

**Supportability:** TM 10-8340-240-12&P

**NSN:**
- Small 8340-01-456-3633 (green)/8340-01-491-1507 (tan)
- Medium 8340-01-456-3628 (green)/8340-01-491-1515 (tan)
- Large 8340-01-456-3674 (green)/8340-01-491-1479 (tan)

**POC:** DSN 256-5637, (508) 233-5637
FORWARD OPERATION BASE SYSTEM - BAREBASE COMMAND AND CONTROL MODULE

Capabilities: This is a 3600 square foot complex designed to provide work and living space for 30 soldiers. It is a complete system and includes shelters, floors, liners, vestibules, tables, mapboards, chairs, lighting, DISE box, power panels, an electrical distribution system and cots. An Early Entry 10 soldier Jump TOC may be segmented from the system to support advanced parties.

Description: The main building blocks are the Modular General Purpose Tent System (MGPTS), command post components from the Modular Command Post System (MCPS), TEMPER tent vestibules and commercial components from the construction industry. About 90% of the C2-MOD components are type classified and all are fully supportable. It can be configured in multiple ways and includes a “Commanders Play Book”. The Play Book allows the brigade command staff to lay out the system on a felt diagram using velcro replicas of the basic shelter components. We are also working on bootwalls to interconnect shelters to vehicles.

Power requirements: Supplied with a 100A DISE Box which feeds five – 50A 1ph Power Distribution Panels (PDP). Each PDP provides six 20A GFI protected circuits. A secondary power distribution system provides a 20A triplex outlet at 9’ O.C.

Size: 3600 sq feet

Weight: Approx. 8500 lbs

Cost: $125k

Availability: 90days from receipt of MIRP

Transportability: May be transported in one - 20’ MILVAN or three - ISU-90 Containers. In this configuration it takes three C-130 pallet spaces. May also be packed on three-Cargo HMMWVs and two-M101 Trailers. Equals one C-141 load with vehicles.

NSN: Various NSNs

POC: DSN 256-5136, (508) 233-5136
EARLY ENTRY LSE SYSTEM (EELS) COMMAND POST

Capabilities: This is a 1032 square foot command post complex designed to provide workspace for 20 soldiers (MGPTS Medium) plus a conference area or Commander’s Office (MGPTS Small). It is a complete system and includes shelters, floors, vestibules, tables, mapboards, chairs, lighting, DISE box, power panels, an electrical distribution system and deployment bags. It is supplied with an 648 sq. ft. MGPTS based billeting wing, electrical, lighting and standard cots. Each wing sleeps 14 -16 soldiers.

Description: The Bare Base EELS is a subset of the C2 Module (C2-MOD). The main building blocks for the EELS are the Modular General Purpose Tent System (MGPTS), command post components from the Standard Integrated Command Post System (SICPS), TEMPER tent vestibules and commercial components from the construction industry. About 90% of the EELS components are type classified and all are fully supportable. The EELS has add on environmental kits that include an air distribution system, the Field Deployable Environmental Control Unit, (FDECU) and solar covers for passive cooling. EELS may also be ordered with additional billeting wings.

Power requirements: Supplied with a 200A DISE Box which feeds three 50 A 3 ph Power Distribution Panels (PDP). Each PDP provides six-20 A (4 GFI protected) circuits. A secondary power distribution system provides a 15 A triplex outlet at 9' O.C.

Size: 1,680 sq ft
Weight: 11,140 lbs (approx.)
Cost: $128,000 with 3 FDECU’s and 1 Billeting Wing
Available: 90 days from receipt of MIPR

Transportability: Is packaged in 2 ISU 90 Containers.

NSN: various - see separate sheet
POC: DSN 256-5024, (508) 233-5024

EELS Desert Style w/ Solar Covers
Solar Covers Will Provide Passive Cooling
Capabilities: The SCT was originally developed to provide environmental protection for billeting of combat vehicle crews. The SCT’s popularity is promoting a change in the authorization of units in need of billeting for small unit elements.

Description: The SCT is a lightweight, durable, single frame, single hub tent. The tent body is suspended from the frame in a canopy style. An over-cover lies on top of the frame to provide an air gap for added insulation. Two reversible over-covers are available in green/tan or green/white configurations. A cold weather cotton liner is also provided. Houses up to 5 soldiers comfortably with 120 square feet floor space. Erect/strike is accomplished in less than 5 minutes. A storage/transport cover is included as well as a field repair kit. A 4” stovepipe opening is included for use with standard military heaters.

Size (L×W×H): 11’ × 11’ × 53”

Weight: 75 lbs

Cost: $1150

Status/availability: CTA 50-909 item, available now thru DLA.

Transportability: All traditional modes

Supportability: TM 10-8340-227-13 & P

NSN:
Type I (green/tan) 8340-01-359-0084
Type II (green/white) 8340-01-359-1481

POC: DSN 256-5637, (508) 233-5637
MODULAR COMMAND POST SYSTEM

Capabilities: Provides a highly mobile, modular tent system that complexes into many configurations for a variety of missions including Command Posts, Tactical Operation Centers (TOCs), administration, billeting, supply, medical and maintenance facilities.

Description: The MCPS is lightweight aluminum frame supported tent with coated polyester blackout fabric. Each MCPS includes a flame resistant lightweight internal liner, two 40-Watt fluorescent light fixtures, two field tables, four plywood mapboard panels, and 121 square feet of uninterrupted floor space. Erect/strike is accomplished by two soldiers in 20 minutes. An optional fabric bootwall kit is available allowing the MCPS to connect directly to tracked and wheeled vehicles.

Power requirements: None; electrical feed throughs are provided to accept external power sources.

Size (LxWxH): 11' × 11' × 7'-9' (eave to peak)

Weight: 595 lbs

Cost: $4,800

Status/availability: CTA 50-909 item, available now thru DLA.

Transportability: Air, land and sea

Supportability: TM 10-8340-222-10

NSN: Green 8340-01-323-2454/Tan 8340-01-334-7529

**Purpose/Use:** Provide solar protection of munitions, vehicles, equipment, and personnel

**Description:**
- This is a new complete system that includes: (fly/cover, poles, stakes, rope, repair kit)
- Lightweight fabric, open weave material
- Complexible/modular to cover multiple shapes and sizes
- Pole supported: (aluminum, telescoping)
- Reduces solar effects by 50 to 60%
- Vehicle drive through capability
- Floor area Type I: 1225 sq. ft.
- Floor area Type II: 2500 sq. ft.

**Erection:**
Type I: Two soldiers – 30 minutes / Type II: Two soldiers – one hour

**Size:**
Type I: 35ft × 35ft / Type II: 50ft × 50ft

**Price:**
Type I: $2,363.00 / Type II: $4,026.68

**NSNs:**
Type I: 5410-01-519-7041 / Type II: 5410-01-519-7185

**Availability:** Procure with funded requisitions through normal DOD supply system.

**POCs:**
- DSN 256-5642, COM: 508-233-5642
- DSN 256-6005, COM: 508-233-6005
- DSN 256-4589, COM: 508-233-4589
Force Provider is the Army’s Premier Base Camp. The Force Provider concept was born in 1991 as a result of inadequate living conditions for our soldiers during Desert Shield/Storm. General Sullivan, CSA, directed the development of a containerized, highly deployable “city”.

Force Provider is a compilation of existing military and commercial products: containing all the equipment necessary to provide climate-controlled billeting, quality food and dining facilities, hygiene services and MWR facilities to support 550 personnel and 50 operators. The basic building block is the Tent Extendable Modular Personnel (TEMPER) Tent, each equipped with a heating and air conditioning unit. Force Provider comes complete with water and fuel storage, power generation and distribution systems, and waste water collection.

The system is containerized and preconfigured, facilitating movement by any combination of land, air and sea. Missions for Force Provider include rest and refit, theater reception, intermediate staging base, re-deployment and base camps for other military operations such as peacekeeping missions. A typical camp requires approximately 10 acres of land. The site preparation takes approximately 3 to 4 days with the entire camp fully operational in 14 days or less. Force Provider has provided high quality living conditions in Guatemala, Honduras, Haiti,
Guantanamo Bay and Bosnia. The APM Force Provider Office is currently working on modernization plans, to increase the efficiency of the base camp while decreasing operation and maintenance costs.

Each Module Supports 550 personnel (+50 operators) with:

- Climate Controlled Billeting — TEMPER (15 soldiers per tent)
- Quality Food Service (1800 meals/day “A” rations)
- Laundry Service (200 lbs hour)
- Showers & Latrines (one 10 minute shower/day)
- Morale, Welfare and Recreation Facilities and Equipment
- Power, 60 kW TQGs (1.1 MW Continuous) or Prime Power Support
- Water Storage & Distribution (80K gals/3 days)
- Fuel Storage & Distribution (20K gals/3 days)
- Waste Water Collection (30K gals/day)
- System Support Packages-- 30 days spare & repair parts
- Transportable--air, rail, land, sea (containerized) 103 TRICONs, 3 ISOs and rolling stock

POC: DSN 256-4486, (508) 233-4486
Capabilities: Provides the capability to have a light-weight, mobile repair shelter for tracked and wheeled vehicles across the battlefield under all climatic conditions.

Description: Vinyl-coated polyester fabric panels and aluminum components and assemblies.

Power requirements: Power distribution box provided, 70 Amp/120VAC

Size(LxWxH): 32' × 24' × 13.5'

Weight: 1,400 lbs

Cost: $10,500

Availability: Fielded as MTOE item using HQDA-provided DAMPL.

Transportability: Traditional air, land and sea methods.

NSN: 5410-01-456-3637

POC: DSN 256-5637, (508) 233-5637
Family of Cargo Bed Covers (CBC) replaces existing “Built-Up” structures in the field with a standard item. The CBC protects, stores and secures equipment, tools and pilferable items/supplies while being transported on tactical wheeled vehicles. The CBC does not diminish mobility requirements of its carrier.

Description: Each CBC is a lightweight rigid enclosure that is easily mountable to its designed carrier. There are four CBC types:
- Type I (HMMWV);
- Type II (1-1/2T Trailer);
- Type III (2-1/2T Truck/LMTV);
- Type IV (5T Truck/MTV)

Type III/IV CBCs are height reducible for internal aircraft (C-130, C-141) transport.

Power requirements: None, electrical cable port provided to accept external power sources.

Size: Sized to fit on carrier bed.

Weight: Ranges 425 lbs to 760 lbs depending on type

Cost: Types I & II - $7,925; Types III & IV - $22,500

Status/availability: CTA items. All types available now thru TACOM ILSC.

Transportability: Sea, land and external/internal air

Supportability: Standard Army Systems

NSNs:
- Type I (camo) 5411-01-467-3243 / (sand) 5411-01-479-1928
- Type II (camo) 5411-01-467-3185 / (sand) 5411-01-479-1925
- Type III (camo) 5411-01-472-7852 / (sand) 5411-01-479-1932
- Type IV (camo) 5411-01-472-7857 / (sand) 5411-01-479-1933

POC: DSN 256-5637, (508) 233-5637
Capabilities: Large area maintenance and repair shelter for helicopters, tanks, wheeled vehicles.

Description: Both versions are constructed of vinyl coated polyester fabric panels that lock into aluminum beams.

Power Requirements: Both come with lights, power distribution boxes and exhaust fans. Require 120/208 Volt, three phase 60 Hz.

Size:
- Type AM – 75 ft wide × 190 ft long × 30 ft high
- Type VM – 65 ft wide × 120 ft long × 30 ft high

Manufacturer:
- AM: Clamshell
- VM: Canvas Specialties

Availability: War Reserve Stock – DA Approval Required with setup and striking charges applicable.

Transportability: Both transportable in two ISO Containers

Supportability: Contractor Support

NSN:
- AM: 5410-01-334-31
- VM: 5410-01-333-9299

POCs:
- DSN 256-6090, (508) 233-6090
- DSN 256-6439, (508) 233-6439
LARGE INTEGRATED COMMAND POST SYSTEM (LICPS)

Characteristics:
- 1000 sf. Floor Space Main Hub
- 30 ft. Wide × 33 ft. Long
- Utilizes Modified AF Shelter Platform
- Plus 1000 sf. Wings (4-Frame Tents)
- Integrated with Tables, Mapboards, Chairs, Lighting, Electrical System
- 463 L Compatible
- Can Link to Six Other Shelters
- Links with TEMPER Vestibule Ring
- TEMPER Tents
- Modular GP Tent System
- SICPS Bootwalls with Interface

Estimated cost: $150,000

Includes: CONUS Shipping & Training Team

POC: DSN 256-5257, (508) 233-5257
US AIR FORCE SMALL SHELTER SYSTEM

- Modified Commercial
- 650 sq ft Billeting (20 × 32 ft)
- 30% System Airlift Reduction
- Erects in less than 30 minutes with 4 people
- 100 mph wind/15 psf snow load (65/10)
- HVAC – 3.5 ton ATS
- Twenty-year storage life
- Highly ruggedized

**Cost:** $14k - $25k (w/HAC)

Contract awarded to Alaska Industrial Resources, Inc. Now on GSA Schedule

**POC:** (850) 882-4686 x331
US AIR FORCE EXPEDITIONARY MEDICAL SUPPORT

- Reconfigured Small Shelter System
- 1100 lbs
- Erects in less than 30 minutes
- 100 mph wind/15 psf snow load  (65/10)
- Compatible with existing shelters
- Twenty year storage life
- Connectability offers unlimited layout
- Vestibules and extensions
- Bright, spacious, interior
- Surgery suite
- Positive pressure keeps contaminants out of OR
- Highly ruggedized

“Urgent and Compelling” Contract Modification to SSS Contract for 102 shelters ($2.4M) in FY 00. Now on GSA Schedule.

POC: (850) 882-4686 x331
US AIR FORCE MEDIUM SHELTER SYSTEM (MSS)

- Modified Commercial 1500 sq ft storage, maintenance, and recreation shelter.
- 29.5' wide × 52' long × 15' high
- 11' w × 10.5' h vehicle doors on each end
- 66% airlift reduction over AF GP shelter
- Erects in under 4 hours (75% reduction)
- USAF tested: -55° F to 125° F
- 100 mph wind/20 psf snow load
- Twenty year storage life
- Highly ruggedized
- Entire MSS packs and ships in single container
- Two MSS containers ship on one 463L pallet

**Cost:** $65K

Contract awarded to California Industrial Facilities Resources, Inc.

**POC:** (478) 222-1632
**Capabilities:** Provides heated air (radiant and natural convective) to safely and efficiently warm soldiers operating in basic cold, and extreme cold environments. Replaces antiquated, gasoline burning M-50 Yukon Heater.

**Description:** SHA is a lightweight, portable, multi-fueled, non-powered heater intended to heat five and ten man arctic tents. Provides a maximum heat output of 28K BTU with a high/low adjustment capability. Burns liquid and solid fuels.

**Power requirements:** None.

**Size (L×W×H):** 17" × 9" × 17"

**Weight:** 41 lbs

**Cost:** $783

**Status/availability:** CTA 50-909 item, available now thru DLA.

**NSN:** 4520-01-444-2375

**POC:** DSN 256-5637, (508) 233-5637
**Capabilities:** Provides heated air to safely and efficiently warm soldiers operating in basic cold, and extreme cold environments. Provides new capability for heating smaller tents (4 man or smaller).

**Description:** SHS is a lightweight, portable, multi-fueled, non-powered heater intended to heat the 4-man Soldier Crew Tent. Provides a maximum heat output of 12K BTU with a high/low adjustment capability. Burns liquid fuels. Integral fuel tank eliminates need for fuel can, fuel can stand, gravity feed adapter, hoses and fittings.

**Power requirements:** None.

**Size (L×W×H):** 16" × 9" × 14"

**Weight:** 32 lbs

**Cost:** $600

**Status/availability:** CTA 50-909 item, available now thru DLA.

**NSN:** 4520-01-478-9207

**POC:** DSN 256-5637, (508) 233-5637
Capabilities: Provides heated air to safely and efficiently warm soldiers operating in basic cold, and extreme cold environments. Replaces antiquated M-41 heater that had severe operational and safety deficiencies.

Description: H-45 space heater is a 45k BTU heater intended to heat the General Purpose and TEMPER tents. Operates without use of electrical power; burns liquid and solid fuels.

Power requirements: None.

Size (L×W×H): 18"D × 24"H

Weight: 65 lbs.

Cost: $495

Status/availability: CTA 50-909 item, available now thru DLA.

NSN: 4520-01-329-3451

POC: DSN 256-5637, (508) 233-5637
**Capabilities:** 28-35k BTU thermoelectric heater provides forced hot air circulation for shelters without a generator. This heater generates its own power and recharges its battery. Automatic start and temperature controls.

**Description:** Delivers clean, breathable heat to Modular Command Post System, tents and TOCs. Converts waste heat into electrical energy, which is used to power the blowers, pumps, ignition system, safety system, and control devices, and recharges its own starting battery.

**Power requirements:** None.

**Size (L×W×H):** 40" × 14" × 18"

**Weight:** 74 lbs

**Cost:** $7,310

**Status/availability:** CTA 50-909 item, available now thru DLA.

**NSN:** 4520-01-431-8927

**POC:** DSN 256-5637, (508) 233-5637
Capabilities: Circulates heated air inside all military tents to improve habitability conditions and significantly reduce fuel usage by generating its own electrical power.

Description: TEF is a silent, compact, rugged fan unit placed on top of any military tent heater. A built-in thermoelectric module converts heat from the top surface of the heater into electricity to power the TEF. The TEF distributes heated air throughout the entire shelter.

Power requirements: None.
Size (L×W×H): 14"D × 10"H
Weight: 12 lbs
Cost: $520
Status/availability: CTA 50-909 item, available now thru DLA.
NSN: 4520-01-457-2790
POC: DSN 256-5637, (508) 233-5637
MODERN BURNER UNIT

Capabilities: Provides food service personnel the ability to safely and efficiently operate the field kitchens on battlefield fuels (JP-8).

Description: Direct replacement for the M2 Burner, push button operation, lights in place with electronic ignition, fuels in place, operational in environments from –25°F to 125°F.

Power requirements: 24VDC, 2kW generator set for MKT

Size (L×W×H): 23" × 19" × 9.75" (same as M2 burner)

Weight: 39 lbs empty, 54 lbs fully fueled

Cost: $1,400 (burner), cost of 6 MBUs with installation kit to outfit a Mobile Kitchen Trailer ~$15k .

Status/availability: Currently being produced and fielded through FY07, IAW DAMPL.

Transportability: Transported inside kitchen.

Supportability: TM 9-6115-673-13&P

NSN: 7310-01-452-8137

POC: DSN 256-5543, (508) 233-5543
ARMY SPACE HEATER

**Capability:** 140K BTU/hr, 1000cfm air flow. Automatic remote or manually controlled heat for shelters, vans, and other enclosed areas. Connects with flexible ducts.

**Description:** Pressurized enclosure can be hardened against NBC environments. 4-person carry. Retractable wheels, skids for use on snow. Power consumption (115V, 50-60 Hz, 1-phase, 10 Amp) less than 1200 Watts. Damper adjustable for fresh air input. Remote fuel tank hose provided; will operate up to 10 ft. above fuel supply. Can be stacked in pairs for storage/transport. Noise: 60dBA@ 1 meter. Operates as recirculating heater or ventilator.

**Manufacturer:** Engineered Air Systems, 314-993-5880

**Fuel:** JP8 and all diesel. Operates unattended 14 hrs on 15-gal. tank

**Size:** 32" × 40" × 50" (37.9 ft³)

**Cost:** $7733 ea.

**Weight (lb):** 355

**Availability:** All assets are reserved for Force Package I units. Urgent requirement must go through SI as an OUT-OF-DAMPL

**NSN:** 4520-01-439-1682

**Supportability:** Class VII item.

**POC:** (732) 532-6053
MULTIFUEL SPACE HEATER, 15,000 BTU

**Capability:** 15 K BTU heater, 115 cfm air flow, for small/mobile shelters. Allows for use of fan without heat.

**Description:** Heats or ventilates truck-mounted shelters, cargo bodies, mobile tool sheds. Weatherproof; can be mounted outside. Includes control panel, thermostat, fuel pump & filter, wiring harness. Requires 10 Amp@28VDC (from vehicle). Designed for Canadian DND.

**Manufacturer:** Hunter Manufacturing Co., Solon OH, 440-248-6111; sales@hunterheater.com

**Fuel:** Diesel 1, 2, A; JP-8

**Size:** 7" × 11" × 15"; 0.7 ft³

**Weight (lb):** 26

**Cost:** $2,500 (small quantity price)

**Availability:** 210 days; not available from stock. IMPACT card item.

**Supportability:** Manufacturer.

**NSN:** 4520-21-871-7999

**POC:** Not managed by any DoD entity. Part of Reverse Osmosis Water Purification Unit (mfg. By Keco)
MULTIFUEL SPACE HEATER, 30,000 BTU

**Capability:** 30 KBTU heater, 300 cfm air flow, for small/mobile shelters, truck bodies. Allows for use of fan without heat.

**Description:** Heats or ventilates truck-mounted shelters, cargo carriers, troop transports. Weatherproof; can be mounted outside. Includes control panel, thermostat, fuel pump & filter, wiring harness. Requires 12 Amp@28VDC (from vehicle). Designed for Canadian DND.

**Manufacturer:** Hunter Manufacturing Co., Solon OH, 440-248-6111; sales@hunterheater.com

**Fuel:** Diesel 1, 2, A; JP-8

**Size:** 12" × 14" × 19" (w/ intake hood); 1.8 ft³

**Weight (lbs):** 47

**Cost:** $3,000 (small quantity price)

**Availability:** 210 day lead time; not currently in production. IMPACT card item.

**Supportability:** Manufacturer.

**NSN:** 4520-21-885-3958

**POC:** Manufacturer. Not currently part of US DoD inventory.
MULTIFUEL SPACE HEATER, 60,000 BTU

**Capability:** 60 KBTU heater, 725 cfm air flow, for vehicle bodies, mobile shelters. Allows for use of fan without heat.

**Description:** Heats or ventilates mobile shelters, van bodies and expandable vans, system support vehicles mobile shelters. Controls may be mounted remotely or on unit. Can be ordered with air discharge direction up, down, or sideways. Uses fresh or recirculated air. Includes control panel, thermostat, electrical connectors for main power, fuel pump, thermostat. Requires 4.2 Amp@120VAC.

**Manufacturer:** Hunter Manufacturing Co., Solon OH, 440-248-6111; sales@hunterheater.com

**Fuel:** Diesel 1, 2, A; JP-8

**Size:** 22" × 10" × 26"; 3.3 ft³

**Weight (lbs):** 110

**Cost:** $3,000 (small quantity price)

**Availability:** 210-day lead time, not in current production. IMPAC card item.

**Supportability:** Spare parts managed out of Defense Supply Columbus

**NSN:** 4520-01-203-4410

**POC:** (732) 532-6052
**Capability:** Completely portable; 400,000 BTU, 1500 CFM air flow at 180°-280° F, at ambient temperatures down to –65° F. Includes trailer; engine powers fans, fuel pump.

**Description:** Air-cooled diesel self-powered heater for soft- and hard-wall shelters, work sites, aircraft pre-heating. 12-inch apertures. Clean air flow, may be ducted. 12-hr fuel tank, control system with automatic built-in testing to optimize operation and simplify troubleshooting.

**Manufacturer:** Hunter Manufacturing Co., Solon OH, 440-248-6111; sales@hunterheater.com

**Fuel:** Diesel

**Size:** 50" × 31" × 53"; 47.3 ft³

**Weight (lbs):** 800

**Cost:** $13,819

**Availability:** 90 days lead in small quantities.

**Supportability:** Class VII; parts in current production.

**NSN:** 4520-01-471-6541

**POC:** (215) 737-8465
Military Hot Water Heater – HW30

**Capability:** 30 KBTU, 175-300 cfm air flow. Blower and outlet may be configured in several variations to fit many applications. Versions of this heater are standard on 2-½ ton and 5 ton trucks.

**Description:** Uses hot water from vehicle engine to heat vehicle cabs, small bodies, and the HMMWV. Requires 28VDC power. Mounting brackets, duct adapters, core tubes configured to suit customer needs.

**Manufacturer:** Hunter Manufacturing Co., Solon OH, 440-248-6111; sales@hunterheater.com

**Fuel:** No fuel needed. Uses electrical power and hot water from vehicle.

**Size:** 10" × 10" × 20" ; 1.2 ft³

**Weight (lbs):** 20

**Cost:** $250 (small quantity price). IMPAC item.

**Availability:** In stock.

**Supportability:** Parts available, DSC or manufacturer.

**NSN:** 2540-00-020-8591

**POC:** Defense Supply Columbus
**Capability:** Choice of DC or AC power for Missile Air Defense systems, mobile kitchens, combat support and communications systems. 4-soldier portable, operable in chemical/arctic clothing.

**Description:** 2kW output: 28 VDC, 2 wire OR 120VAC, 60Hz, 1 phase, 2 wire. Skid mounted. Noise: 79 dBA @ 7 meters.

**Manufacturer:** Dewey Electronics Corporation (201) 337-4700; dewey@deweyelectronics.com. Alt. Source: Mechron Energy Systems (Ontario), (613) 733-3855; mktg@mechron.com

**Fuel:** Diesel 1&2, JP-8, Jet A-1. Fuel capacity 1.6 gal.

**Size:** 30" × 16" × 22"; 6 ft³

**Weight (lbs):**
- DC: 138 (wet), 124 (dry)
- AC: 158 (wet), 140 (dry)

**Cost:**
- DC: $4,572 (DC)
- AC: $5,262 (AC)

**Supportability:** Class VII item.

**NSN:**
- DC: 6115-01-435-1567
- AC: 6115-01-435-1565

**POC:** DSN 654-3168, (703) 704-3168
**5KW TACTICAL QUIET GENERATOR**

**Capability:** AC power for weapons and missile systems, causeway systems, C4I systems; choice of 60Hz or 400Hz

**Description:**
- 5kW output: 60 Hz or 400 Hz - 120VAC, 1 phase, 2 wire; 120/240VAC, 1 phase, 3 wire; 120/208VAC 3 phase, 4 wire.
- Noise: 70 dBA @7 meters.
- 60-Hz model available skid-mounted (single) or as power unit, power plant on 3/4 –T trailer, or power plant on 1.5-T trailer.
- Power unit and plants come with accessory box, switch box, and fire extinguisher.

**Manufacturer:** Fermont, 203-366-5211, fermont@engineeredsupport.com

**Size:** Skid-mounted single unit: 50" × 32" × 36".

**Cost:** Skid-mounted: $10,994 (60Hz); $13,526 (400Hz); power unit $17,000, power plant $34,000

**Availability:** In production; 12-mo lead time.

**Supportability:** Class VII item. TM 9-6115-641-10.

**POC:** DSN 654-3168, (703) 704-3168

**30kW Tactical Quiet Generator**

**Capability:** AC power for weapons and missile systems, bakery plant, ADP support systems, water purification, C4I systems, aviation shop; choice of 60Hz or 400Hz.

**Description:**
- 30kW output: 60 Hz or 400 Hz: 120/208VAC, 3 phase, 4 wire; 240/416VAC, 3 phase, 4 wire.
- Available skid-mounted (shown), as power unit on 2.5-T. trailer, or as power plant on 2, 2.5-T trailers (60 Hz only).
- Power units and plant come with accessory box, switch box, and fire extinguisher.
- Noise: 70 dBA @ 7 meters.

**Manufacturer:** MC II Electric, Tulsa OK (918) 250-4413. info@mciigenerators.com

**Cost:** Skid-mounted: $22,012 (60kW), $24,348 (600Hz)

**Availability:** 12/93 and cont; new line 3Q01

**Supportability:** Class VII item. TM 9-6115-644-10.

**POC:** DSN 654-3168, (703) 704-3168

60kW TACTICAL QUIET GENERATOR

**Capability:** AC power for weapons and missile systems, Earth satellite terminals, field hospitals/schools, aviation ground support; choice of 60Hz or 400Hz.

**Description:**
- 60kW output: 60 Hz or 400 Hz: 120/208VAC, 3 phase, 4 wire; 240/416VAC, 3 phase, 4 wire.
- Available skid-mounted (shown), as power unit on 2.5-T trailer, or as power plant on 2, 2.5-T trailers or 1, 5-T trailer (Air Force version).
- Power units and plant come with accessory box, switch box, and fire extinguisher.
- Noise: 70 dBA @ 7 meters.

**Manufacturer:** MC II Electric, Tulsa, OK, (918) 250-4413, info@mciigenerators.com

**Cost:** $25,063 (60Hz); $28,415 (400Hz)

**Availability:** ‘A’ model is discontinued; ‘B’ model 3Q01, Europe (new version, will have new NSN)

**Supportability:** Class VII, TM 6115-645-10 (Air Force TO-35C2-3-444-11)

**POC:** DSN 654-3168, (703) 704-3168

**3kW RE-ENGINE KIT**

**Capability:** Simple replacement of gasoline engine in old 3kW generators.

**Description:**
- 6 HP air-cooled diesel engine, 1 cylinder, 4 cycle, direct injection, recoil starter, electric fuel and 24VDC magneto.
- Includes digital control panel.
- To date used only by reserve units.

**Manufacturer:** VSE Corporation, (703) 960-4600; info@vsecorp.com

**Fuel:** Diesel 1,2; diesel A; JP8

**Size:** 35" × 24" × 25" (12.2ft³)

**Weight (lbs):** 60Hz: 277 (wet); 400Hz: 341 (wet)

**Cost:** $2,400

**Availability:** Immediate (OMA funds)

**Supportability:** Class IX

**NSN:** 2815-01-440-4426

**POC:** DSN 654-3168, (703) 704-3168
5kW 28 VDC AUXILIARY POWER UNIT

**Capability:** 5kW DC generator; replacement for old 4.2kW gasoline models on APCs; used on M1068 tracked APC; for C4I systems.

**Description:**
- 28VDC, standard NATO slave receptacle for electric start but also has hand crank; electric or manual start; cannot operate separated from vehicle, can be loaded on aircraft w/o removal from APC.
- Very low profile promotes driver visibility.
- Air cooled.

**Manufacturer:** Goodman Ball Ind., (650) 363-0113, gbi@ixnetcom.com

**Fuel:** Diesel

**Size:** 34" × 3031" × 17" (11.4 ft³)

**Weight (lbs):** 550, including housing.

**Cost:** $18,221

**Availability:** 6 mo lead time from manufacturer.

**Supportability:** Class IX item; available as part of 1068 only

**NSN:** 6115-01-452-6513 (Production model)

**POC:** DSN 654-3168, (703) 704-3168
**Capability:** 10kW 60Hz, 120/240 VAC generator for power supply to shelters.

**Description:**
- Supplied on rail for insertion into shelter tunnel; 28 VDC start (from vehicle); 20 A battery charger.
- Slightly different configuration in Air Defense version. Remote control panel (in shelter).
- C model is most recent.
- Starting and fuel depend on HMMWV.
- Noise: 70 dBA @ 7 meters.

**Manufacturer:** KECO Industries; Versailles, KY, 1-800-395-6932

**Fuel:** Diesel 1&2; JP-8, Jet A-1. Uses vehicle fuel via quick-disconnect

**Size:** 36" × 26" × 28" (15.3 ft³)

**Weight (lbs):** 460 on rail

**Cost:** $14,684

**Availability:** 12 mo lead time from manufacturer.

**Supportability:** Class VII item. TM 9-6115-670-14&P

**NSN:** 6115-01-431-3062

**POC:** DSN 654-3168, (703) 704-3168
POWER DISTRIBUTION SYSTEMS: PDISE BOXES

**Capability:** 4 sizes of generator-power-distribution boxes (40, 60, 100, and 200A), connecting cables, and assemblage of utility extension cords, branch circuits and lighting equipment (see table).

**Description:** Man-portable electrical distribution systems for safe, all-weather electrical power distribution from generator sets to multiple users (such as vehicles, shelters, field unit complexes, tents, etc.). Enables quick assembly/disassembly. Various sizes allow selection to match generators from 5kW to 100kW (see table). For specifics of supporting cable systems for your application, contact project engineer. DISE systems have been replaced by PDISE systems, which have a circuit breaker that is not affected by high ambient temperatures.

**Manufacturer:** UNICOR (Federal Prison Industries).

**Liaison:** 732-532-2758

**Availability:** Minimum manufacture order 5 ea; 7-mo lead time

**Supportability:** Class VII item.

**POC:** DSN 654-3168, (703) 704-3168
